* These sugars are 'natural sugars', which occur in foods such as fruit. Although all sugars can cause tooth decay, fruit has many benefits. Try to restrict foods high in natural sugar to mealtimes only, and cut down on foods high in 'added sugar' such as sweets, cakes and biscuits.

Handy Hints

- If you are allergic to dairy products you can use soya milk and soya yoghurt instead.
- This is a great way of using up bananas that have gone over ripe.
- If you don't have a blender, use a fork to mash up the banana.
- Great for a breakfast drink.
