\* These sugars are 'natural sugars', which occur in foods such as fruit. Although all sugars can cause tooth decay, fruit has many benefits. Try to restrict foods high in natural sugar to mealtimes only, and cut down on foods high in 'added sugar' such as sweets, cakes and biscuits.

## Handy Hints

- Strawberries or blackberries can be used instead of raspberries.
- Turn any left over mixture into ice lollies by freezing in small containers.
- Packed with loads of vitamins.
