

Azra Mask

HOW TO MAKE YOUR MASK

Step 1

Ask an adult to help you print this sheet. You could stick the sheet on to a thin piece of card to make the mask more sturdy.

Step 2

Carefully cut out the mask along the dotted lines.

Step 3

Cut around the eye and mouth holes (ask an adult to help if you need to).

Step 4

Cut or punch out the holes on either side of the mask.

Step 5

Tie a piece of string or elastic through the two small holes.
